

Texas Waterway Cleanup Program

The rivers and lakes of our great state provide recreation, drinking water, agricultural irrigation and beauty. Unfortunately, many Texas waterways are polluted. Everything from cigarette butts to plastic bags and old tires contributes to substandard water quality and affects the beauty and appeal of our waterways. The Texas Waterway Cleanup Program is an effort between Keep Texas Beautiful (KTB) and the Texas Commission on Environmental Quality. **The program offers FREE cleanup supplies and helps communities and organizations coordinate waterway cleanups and litter prevention activities.**

What Can I Do?

Plan a cleanup of a lake, river, creek, wetland, or other freshwater area for your family, friends, workplace, or community!

Mark storm drains with a message to help prevent water pollution!

Who Can Participate?

Concerned Texans,
Community and nonprofit groups,
Schools,
Scouts and youth groups, and
Businesses and companies

How Will The City of Wichita Falls and Keep Texas Beautiful Help?

The City Storm Water Management Program will coordinate with the Texas Waterway Cleanup Program coordinator to give you planning and publicity assistance, as well as materials needed for your cleanup. The program supplies free garbage bags, tools for litter pickup, first-aid kits, disposable gloves, press releases, posters, fact sheet, giveaways, and more. Together, we can support a wide range of activities — **no event is too large or too small!**

How Do I Get Started?

Contact Public Works Department
at 761-7477!

The Storm Water Program Manager can answer your questions and give you more information.
